In their words

- ‘I have never had so many learning opportunities.’
- ‘I was worried I might lose my skills moving from hospital to hospice but I’m gaining new ones.’
- ‘Working with a PE has helped to build up my confidence working with ventilated children.’
- ‘it was really satisfying to be able to support a child on PD to enable the family to have a break.’
- ‘I love the workbooks as they help me to understand physiology and how things can go wrong.,

Any Questions ?
